

# STANDARD EDGE PROFILES

There is no extra charge when door or drawer front is edged the same on all four sides.  
Add \$ .50 per square foot for more than one edge on the same door or drawer front

### FRAMELESS AND FULL OVERLAY APPLICATIONS

If you indicate to us by adding an "E" after the edge profile number, we will hold the tolerances to +0,-1/16" and check every door and drawer front for squareness. We recommend a 3mm (1/8") reveal to allow for normal wood expansion and contraction. Add \$ .50 per square foot.

If you are ordering doors for a metric application, please convert your order from millimeters by dividing by 25.4 and rounding to the nearest 1/16".
