Fax (716) 832-9294
Orders (888) 40 REFACE toll free

How to Order and Measure

Order *exact* overall door sizes. Please do not order by opening sizes

- ◆ Select **WOOD TYPE**.
- ◆ Select **DOOR DESIGN**.
- ◆ Select **EDGE PROFILE**. Doors or drawer fronts ordered without edge profile will be shipped rough-cut on edges and 1/8" larger than sizes ordered. All four sides will be edged the same unless otherwise indicated. For doors or drawer fronts ordered with more than one edge profile, add 50 cents per square foot.
- ◆ Indicate **APPLIED MOLDING** if desired by adding W/M to Design Number.
- ◆ Determine **DOOR AND DRAWER FRONT SIZES**. Order by giving exact overall door or drawer front sizes. Below are recommended dimension allowances. A different amount may be needed where a special fit is required.
 - For edge profiles 101, 121, or 122, add 1/2" to opening height and width.
 - For all other edge profiles, add 1" to the height and width.
- ◆ Check for **MINIMUM SIZE PROBLEMS**. Some doors over 26" in width and/or 46" in height will have double panels.
- ◆ **MAXIMUM GUARANTEED SIZES**: Doors 23" wide and/or 46" high; Drawer Fronts 30" wide and/or 12" high.

How to Price

- ◆ **DETERMINE SQUARE FOOTAGE** by multiplying exact door/drawer front width times the height and dividing by 144 (round off to the nearest 100th), i.e. $12\frac{1}{2} \times 27\frac{3}{4}$ Door = $(12.5 \times 27.75) / 144 = 2.41$ sq. ft.
- ◆ **MULTIPLY SQUARE FEET BY SQUARE FOOT PRICE**; i.e. Red Oak # 800 2.41 sq. ft. x \$8.20 = \$19.76

FRAME-ONLY DOORS:

USE 9" FOR WIDTH X ACTUAL HEIGHT REGARDLESS OF ACTUAL WIDTH TO FIGURE SQUARE FOOTAGE.

Custom Kitchen

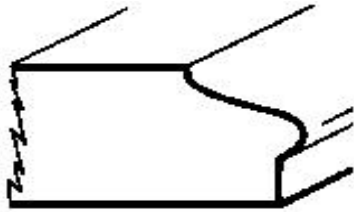

Cabinet Refacing
958 Oliver Street
North Tonawanda, NY 14120
Telephone: (716) 692-3535
Fax: (716) 695-2896

INSTALLING NEW DRAWERS AND SLIDES

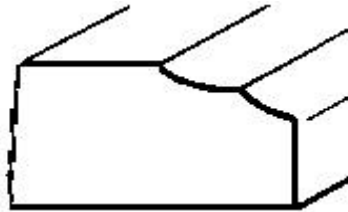

1. Slide the left and right plastic end pieces (sockets) only slightly (about 1") onto the slides, so when they are installed into the cabinet box, you will have to push the slide further into the socket, and they will have enough pressure on them to stay in place before you actually screw in the socket at the back of the slide.
2. Starting with the RIGHT cabinet slide member, set the slide (the one with the roller capturing hooked top) in the right hand lower corner of the drawer opening and push it back further into the socket until it is flush with the front of the cabinet. Install a screw into the front face of the cabinet through the slide member to hold it generally in place. (Drywall screws work well for this because they are very sharp).
3. Mount the LEFT cabinet slide member the same manner.
4. After the two cabinet slide members are connected to the front of the cabinet face, insert the drawer box, ignoring the left slide for now. Move the RIGHT rear socket up and down, and left and right until the front of the drawer box lines up with the front of the cabinet.
5. While holding the right cabinet member slide at the rear plastic socket, mark a pencil line on a CORNER of the socket for reference, then remove the drawer box again. Line the RIGHT socket on the mark you made and screw it in with as many drywall screws as you want.
6. Reinsert the drawer box and move the loose LEFT side cabinet slide member into place at the back so the drawer lies evenly on all 4 rollers of the 4 slide members. You can move the Left member around to find the perfect fit. (not too high, not too low, not too loose and not too tight), and again mark a corner of the rear socket with a pencil line so you will know where to screw it in.
7. Remove the drawer box again and screw the LEFT cabinet slide member into place. Reinstall the drawer box and check that the drawer box lies flat on all the rollers and rolls freely. Check the front of the box again (with a ruler or the drawer front) to make sure that you have mounted it squarely with the front of the cabinet. If not, then move ONE or BOTH sockets around until the front of the drawer box is square to your satisfaction.
8. To mount the drawer front to the drawer box, we recommend that you use double faced tape (foam squares work well), so you can visually line up the drawer front and stick it to the drawer box before permanently mounting with screws. Once the drawer front is stuck to where you want it, open the drawer and drive three or four 1" drywall screws through the box and into the front to permanently affix the front to the drawer box.
9. NOTE: You can either countersink the screws for the handles into the drawer front using the screws that came with the handles BEFORE you permanently mount it, or you can drill through both the drawer front and the drawer box AFTER it is mounted. However, if you elect to mount the handles this way, you will have to buy longer bolts. You will need a "6-32" bolt aprox. 1 1/2" long or more to accomplish this.

STANDARD EDGE PROFILES

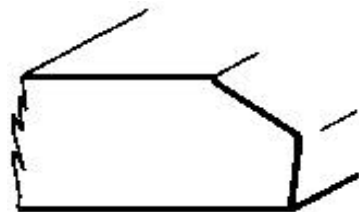

There is no extra charge when door or drawer front is edged the same on all four sides.
Add \$.50 per square foot for more than one edge on the same door or drawer front

FRAMELESS AND FULL OVERLAY APPLICATIONS

If you indicate to us by adding an "E" after the edge profile number, we will hold the tolerances to +0,-1/16" and check every door and drawer front for squareness. We recommend a 3mm (1/8") reveal to allow for normal wood expansion and contraction. Add \$.50 per square foot.

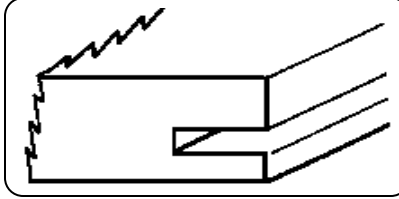

If you are ordering doors for a metric application, please convert your order from millimeters by dividing by 25.4 and rounding to the nearest 1/16".

Due to Availability, core may be MDF, Particleboard, or Veneer core.

Note: All accessory items are made to blend with doors and other accessory items. Items may not exactly match in color and texture.

POLICIES AND WARRANTIES

We are proud of our products and stand behind our quality workmanship.

Questions and Price quotes will be promptly responded to via phone, email, or fax.

- We will accept orders by phone, fax, e-mail, and standard mail. Orders received by phone will be carefully repeated back at the time of phone-in. An acknowledgement including item specifications, sizes, quantities, and prices will be promptly faxed for your confirmation. For order to be processed, the Confirmation of your order, as well as a copy of this 'Policies & Warranties' page must be signed and dated, and faxed back to **(716) 832-9294**, or mailed to Custom Kitchen Cabinet & Refacing, 98 Monarch Drive, Amherst, NY 14226.... Two (2) signatures are required in total. From that point, all orders are considered correct and firm.
- We assume no responsibility for incorrect information received by phone, fax or mail. All items are custom made to customer's specifications; Therefore, cancellations of or changes to orders in process are subject to a charge to be determined by the factory at the time of request.
- Once order is in production (usually within 48 hours of receipt), any changes will be at customer's expense.
- Customer will be notified by fax, or email of the approx. shipping date. (generally 7-10 work days for standard door styles, allow extra time during busiest seasons (fall and spring). Allow an additional week for factory staining and finishing, and an additional week for ground delivery. Total normal lead-time is approx. 4 weeks.
- Payment is required before order can be placed in production, since each order is custom made to your specifications. Payment can be made by MASTER CHARGE, VISA, DISCOVER, AMERICAN EXPRESS, CERTIFIED CHECK, or MONEY ORDER.
- All orders will be processed within 24 hours and are non-cancelable and non-refundable after 72 hours, due to the custom nature of the product. Within 72 hours, a 15% or \$100.00 (whichever is greater) order processing fee will apply.
- The entire dollar amount of the order is non-cancelable and non-refundable. If there is any outstanding balance due, it must be paid before shipping. No allowances will be given with the exception of that clearly stated in the Warranty.
- If there is noticable damage to the shipping cartons, you must notify us AND the carrier within 48 hours.
- There will be a service charge of \$25.00 on orders of 10 doors or less.
- Customer must print out these policies and sign the agreement at the bottom stating that he/she has read and understands the policies and warranties setforth and agrees to abide by them. The signed policy page must be faxed to **(716) 832-9294** or mailed to 98 Monarch Drive, Amherst, NY 14226 before doors will be cut to order.

We warrant all standard products for one year from date of shipment against warpage to these tolerances:

- Raised panel doors less than 23" in width and 46" in height are warranted against warpage of more than 1/8".
- Frames and plywood insert panel doors less than 23" in width and 46" in height are warranted against warpage of more than 1/4".
- Doors more than 23" in width and/or 46" in height are not warranted.
- Drawer fronts less than 8" in height and 24" in width are warranted against warpage of more than 1/4".
- Drawer fronts more than 12" in height (across the grain) or 30" in width (with the grain) are not warranted.
- Mitered doors are warranted against joint gaps of 1/128" (.008) or more.
- Slab doors (style 370) are not warranted against warpage.
- Paint Grade or any painted doors are NOT warranted against paint cracks in joints or visible glue lines in panels caused by natural expansion or contraction of raised panels.
- Natural color and grain variations are not warranted, as they are considered normal in real solid wood products. (SELECT grade will have less color variation than the standard grade)
- Warranty covers replacement of door and shipping only. Warranty does not cover installation, removal, or labor of any kind. Nor does this warranty cover any product used or installed in connection with our products. This warranty does not apply to damage resulting from improper handling, alterations or storage.
- All claims, including shortages, must be made within five days of receipt. Any product claimed to be of defective workmanship or material must be returned for inspection at our request. Credit will be issued subject to our inspection. No returns will be accepted without authorization. DO NOT return any merchandise without notifying us first for authorization.
- We will do everything possible to quickly rectify any problems that may arise. We are, as we have been since 1985, dedicated to customer satisfaction.

I, (print name) _____, have read the policies and warranties above and agree to abide by them.
